Subject: Re: Workshop on SED for Phase I Delta WQCP

Hi Everyone,

Thank you for responding to the doodle poll so quickly. You all should be receiving a calendar invitation for February 19, 11:00 am to 1:00 pm at a conference room to be determined. I included a message in the calendar invite but whenever I do this for meetings with others at EPA, no one seems to see the message in the calendar invite, so I'm including it here too.

The date and time that works best for the most people is 11:00AM - 1:00 PM on Tuesday February 19, 2013. Please bring your lunch with you and I'll bring some goodies to share. I will follow-up this message with an agenda, conference room location, and call-in number. For now, I just want to get this time on calendars. This date and time does not work for anyone from NMFS. However, Friday from 12:00 -- 2:00 PM works for Monica G. from NMFS so perhaps she and I can catch up at that time. And if anyone else wants to continue the discussion let me know and I'll arrange for a room at that time as well.

I support John's proposal detailed in the email below for the agency workshop panel. However, I am not sure if EPA will be presenting or not; we have some things to figure out. I am happy to help coordinate comments and presentations among the agencies whether we present or not. I'm not convinced we each need 30 minutes and am concerned that taking too much time will allow the glaze of information overload to set in on Board members. I think the goal for comments and presentations should be choosing the messages that are most important for each of our agencies and communicating them as efficiently and effectively as we can. I like the idea of having time at the end of the workshop for follow-up questions and presenter comments but I think that the Board should be able ask follow-up questions of any of the panels. The same idea applies to presenter comments at the end -- any of the presenters or meeting attendees should be able to enter a comment at the end.

Thanks again,
Erin

Subject: Workshop on SED for Phase I Delta WQCP

Hi All,

We need to send a request to the State Board to make a presentation at their SED Workshop that starts on Wednesday, March 20, 2013 at 9:00 a.m., and will continue, if necessary, on Thursday, March 21 and Friday, March 22, 2013. We had discussed coordinating as one panel, though we reserving the ability to have individual positions on some issues.

My proposal is:

1. that we have a panel that includes USFWS, NMFS, USEPA, and DFW;
2. with a introduction and then each agency presents (if they wish), and finish with a summary;
and
3. We ask for at least 30 minutes per agency plus 30 minutes for the intro and summary (2 1/2 hours);
4. we ask for time (30 minutes) at the end of the workshop for follow-up questions from the Board

We may not want this amount of time - let me know what you think about time allotments and whatever else your agency wants. Hopefully we can agree on the details by our meeting next week to discuss the SED comments (that Erin is setting up), so we can send the Board our request at the end of the week.

Thanks,

John M. Shelton
